The Cider Mill at Hacklebarney Farm
Proudly Opens for a Weekend in June to Support

Diane O'Hara

June 7-8, 2008 10am-5pm

Diane, niece of Henry and Wanda Jacobson who own the Cider Mill in Chester, NJ, was the "Hot Dog Girl" for over 8 years. Diane was tragically paralyzed in a car accident on June 17, 2006. The once physically active wife and mother of Ryan, Cory, and Shane, was buckled in the back seat when their car came to a sudden stop while traffic merged for construction on Route 78. The car behind them slammed into them going approximately 75 mph breaking Diane's neck, back, and hip. After being airlifted, she spent 5 weeks in a trauma center and 18 months in rehabilitation.

Diane is finally home, and desperately needs a wheelchair accessible vehicle. For now Diane's husband, Kevin, must lift her in and out of the wheelchair to transport her everywhere. **Please help us help them by attending this special fundraiser at the Cider Mill at Hacklebarney Farm, 104 State Park Rd, Chester, NJ!** For directions see www.njcidermill.com All proceeds from this event will go directly towards the acquisition of a wheelchair accessible vehicle for Diane O'Hara.
